Rise in Industrials-Broad and

Active Bond Market.

NEW YORK, Nov. 11 .- There was an-

other day of broad and active speculation

in stocks to-day, and a large and well dis-

tributed demand for bonds, outside of the

extraordinary dealings in some of the con-

vertible and speculative bonds. It is nota-

ble in this regard that while the dealings

for the last week in stocks were still be-

low the large business for the correspond-

the bonds dealt in last week exceeded those

of the corresponding period of last year

by over \$8,000,000. The demand for stocks

to-day was exceedingly varied, as was the

movement of prices, owing to the fact that

the buying demand shifted to new quarters

evidence that the business offerings to the

railroads is greater than ever. From the

overwhelming railroad traffic is largely

made up of general merchadise, due to the

activity in trade in all directions. The

dustrials a natural corollary of the move-

ment in the railroad stocks. The day's

conspicuous advances will be seen to have

centered in the anthracite and soft coal

carriers and in the car and steel indus-

trials. Hocking Valley, with a rise of 3%,

American Car preferred with a gain of 4,

and several others with 2 or more points

to their credit were conspicuous in the

movement. Sugar and Amalgamated Cop-

per were affected by an active demand

largely dealt in for Boston account. Chi-

cago & Eastern Illinois jumped 9 points,

generally strong, the convertible and

speculative bonds especially so. Standard
